Appln. No. 10/065,461
Docket No. 126800/GEN-0342

In Paper No. 20070514, on page 8, the Examiner remarks that Claims 15-17 are allowed for reasons relating to the first four method limitations recited in Claim 15.

While Applicant agrees that presented claims pertain to allowable subject matter, Applicant respectfully submits that to the extent that the Examiner's remarks imply, suggest or state that certain limitations or combinations not found in the prior art of record relied upon are or may be present in each and every allowable claim, whether or not specific language to that effect is found in every allowable claim, the record as a whole must be considered in addition to the Examiner's remarks, and, to the extent that the record as a whole is clear and complete, it shall control the interpretation of any and all allowable claims.

More specifically, the Examiner's statement of reasons may imply that features found in the specification only, in the dependent claims only, or in some but not all independent claims only, are part of all of the allowable claims, when in fact the record clearly reflects that there are claims not so limited. For example, allowed independent Claim 21 is directed to an apparatus having structural limitations suitable for carrying out the method of Claim 15, but does not recite the actual method steps of Claim 15. Accordingly, Claim 21 and claims dependent from Claim 21 that do not recite the same as Claim 15, are not so limited.

Respectfully submitted,

CANTOR COLBURN LLP
